## Space and Naval Warfare Systems Command Awards Contract Modification

SAN DIEGO — Harris Corp., RF Communications Division, Rochester, N.Y., is being awarded a \$70,000,000 ceiling increase modification to a previously awarded indefinite-delivery/indefinite-quantity, firm-fixed-price contract (N00039-07-D-0001) for the procurement of the following Harris handheld, manpack, fixed mount, vehicular, and/or base station configuration of radio families: AN/PRC-117, AN/PRC-150, AN/PRC-152, as well as related ancillary parts for the warfighter. This contract includes options which, if exercised, would bring the cumulative value of this contract to an estimated \$165,800,000. Work will be performed in San Diego, Calif., and is expected to be completed by September 2011. Contract funds will not expire at the end of the current fiscal year. This contract was not competitively procured because Harris Corp., RF Communications Division, is the sole provider of AN/PRC-117, AN/PRC-150, and AN/PRC-150 radio systems. The Space and Naval Warfare Systems Command, San Diego, Calif., is the contracting activity.
